## **2011 IDAHO WHEAT VARIETIES - SUPPLEMENT**

During the 2011 survey, we summarized 93 different wheat varieties. The top twenty varieties account for 69.2 percent of the wheat planted in Idaho for the 2011 crop. This supplement lists estimates for 30 additional varieties which account for 20.9 percent of Idaho's total wheat planted.

Included in the report are acreages of wheat in which multiple varieties were mixed at seeding. Only one of these combinations had sufficient reports and acreage to be published.

Partial funding for the 2011 Idaho Wheat Variety Survey was provided by the Idaho Wheat Commission.
